

Accounting Management Solutions, (AMS) is the leading provider of executive level accounting and finance professionals. Since our founding in 1998, AMS has served nonprofit organizations, publicly-traded and privately-owned companies in the technology, life sciences, healthcare, manufacturing, retail, and service industries.

Our talent pool consists of AMS-dedicated senior professionals with a consultative approach that ensures our clients receive the highest quality talent to supplement their team. As a testament to our excellence, a majority of our business comes from leading CPA firms, advisors, investors, law firms and bank referrals.

The AMS Difference

AMS clients benefit from a national organizational structure that ensures quality service, similar to a public accounting firm. We offer a full range of industry specific expertise to meet client needs at every level of complexity and sophistication.

Our breadth of services includes financial and management reporting, internal controls, organizational structure design and augmentation and strategic decision support. Our success rests with our consultants: experienced senior-level financial professionals with diversified industry backgrounds. They are former CEOs, CFOs, VPs of Finance, Controllers, CPAs, and Audit Managers with 15-30+ years of hands-on financial management and operations experience.

AMS offers a full spectrum of accounting and finance management services on an interim and ongoing basis including:

- Projects & Consulting
- Ongoing Accounting Expertise: Full or Part-Time
- Interim Accounting and Financial Management
- Professional Search
- Specialty Technical Accounting
- Valuation Support
- Project Management
- ERP Analysis, Selection and Conversion Support

Business Advisory Services

AMS Business Advisory Solutions can fill in knowledge gaps, streamline processes and fine-tune proven strategies to maximize your competitive advantage. As industry experienced C-suite and senior level- executives, AMS advisors bring valuable expertise in finance, IT and HR that will keep you moving forward.

Part-Time Resources

AMS provides part-time CFOs, controllers, treasurers, VPs of Finance, and senior accountants. Part-time approaches are customized to help your organization solve challenges and meet ongoing operational finance and accounting needs. We establish a robust financial foundation, close the books on a regular basis, and manage all dimensions of the accounting and finance department. AMS's deep bench of experienced accountants provides flexibility to perform the day-to-day with resources on demand for additional projects as your organization changes and expands.

Interim Resources

AMS consultants help organizations operate efficiently without missing a beat. Whether it is the loss of a key team member, a need to increase staff for critical needs, or the addition of long-term flexible resources, AMS provides just-in-time talent that blends with your culture to keep things running smoothly.

Projects & Consulting

AMS provides the critical support companies need during times of transition, transaction and transformation. We begin with careful analysis and a thorough understanding of your business goals and current resources. Equipped with deep functional, technical and industry-specific experience, our consultants are able to provide a wide variety of services to supplement your team and guide you through the changes to your desired end state.

Professional Search

AMS understands how to identify, attract and retain the right talent for any organization. Unlike firms that focus more on volume rather than quality, we are committed to a consultative search methodology that places our clients' needs at the heart of the process. We are the only search firm in the Northeast that provides a Proprietary Expert Network of peer-reviewed professionals for our clients. Our discovery process is research-based, comprehensive and customized for each client to ensure we identify superior candidates with the technical skills, experience, compensation and cultural profile to be successful in your organization.
